

GOD's Free-Market Principles

GOD's kingdom principles, His free-market principles, His business plan includes rudimentary gleaning-scavenging to support self and ministry.

GOD, for 21 years, provided-sourced CCCInc. work thru menial tasks, simple bartering and gleaning in the affluent-careless-wasteful USA.

GOD measured our personal receipts according to our obedient faith and specific needs for His ministry work, not our desires-wants.

GOD, consequently, taught extreme frugality, trusting Him alone for a bed, food and clothing, while 100% rejecting church-gov't support.

GOD, for 21 years, taught-tested patience that all but one failed to work Heb3:6-4:11 Jam2 etc., then His unlimited supply will flow, to the end.

GOD's true business-ministries comprise all fields of endeavour globally, offering products and services to enhance life and peace in love Gal5:6.

GOD's directors and management must be qualified at Jn15 and Jn14 levels respectively thru His dictated Bible study-tests, annual and personal.

GOD's true business-ministries are described by Tom Sudyk of EC Group International, Grand Rapids, Mich., in NYT Nov 14, 2005:

...a profit-oriented company centered around Christian values can be a powerful tool for building a Christian society. A job-creating, taxpaying enterprise, they say, will be more legitimate in the eyes of locals, harder for a government to expel and better for the resident economy than one propped up by handouts from back home.

"The real power of the movement is that it's not donor-funded, it's basically globally funded," Mr. Sudyk said. "There's no restraint in the capacity of this system, because you avert the donor and plug into globalization."
